

```
#include<stdio.h>

#include<conio.h>

#include<string.h>

int main()
{
    char str1[20], str2[20];
    printf("Enter the string: ");
    gets(str1);
    printf("\n The String is successfully copied");
    printf("\n The first String is : %s", str1);
    strcpy(str2, str1);
    printf("\n The copied String is : %s", str2);
    getch();
    return 0;
}
```

```
C:\Users\Shravya M\Documents\one string .exe
Enter the string: shoushmitha

The String is successfully copied
The first String is : shoushmitha
The copied String is : shoushmitha_
```
